The Automatic Control Group (Prof. Daniel Quevedo) in the Department of Electrical Engineering at the Paderborn University is seeking a

**Lecturer (Akademische Rätin/ Akademischer Rat auf Zeit)**

This is a full-time position, initially limited to three years, with the possibility of further extensions. The position is available immediately.

**Your duties and responsibilities:**
The candidate will be actively involved in research projects of the Automatic Control Group and also support some of its teaching activities.

Our current research interests lie in networked estimation and control, including topics such as control with limited communication or computation resources, event-driven feedback, energy harvesting, distributed architectures, security and privacy. For further information on our activities, see [http://control.upb.de](http://control.upb.de)

**Your profile:**
- Applicants must have received a doctoral degree in electrical engineering or a related field and have a proven capacity for high-quality research.
- Fluency in English and German is required.

We offer a stimulating work environment in an international team and an attractive remuneration package according to pay scale A13 of the German public service (approx. €4,000/month).

Applications from women are particularly welcome and, in case of equal qualifications and experience, will receive preferential treatment according to state law (LGG). Qualified disabled people (in the sense of the German social law SGB IX) are also encouraged to apply. The applicant may choose to have the staff council (WPR) involved in his/her appointment.

Please send your application (including a cover letter, your CV, list of publications, and contact details of three referees) to Ines Kaiser, ines.kaiser@upb.de by 15. January 2017. In your application please mention the reference no. 2767.
