Our Goals and Theses

The Network aims to enable teachers from German-speaking countries to

- exchange ideas,
- share best practices and worst case scenarios,
- discuss research methods and processes as well as
- foster the development of their own teaching practices with colleagues from other universities

Main goals:

- Supporting reflexive practice with an attitude such as of “failing forward”
- low-threshold formats to promote appreciative discussions
- addressing all participants to implement a (peer) supporting structure (e.g. teachers as buddies and mentors, counsellors, students as partners, other experts as critical friends)
- implementing quality criteria
- visibility of SoTL

Our Goals

Discussion

What would you think about an “EuroSoTL Journey”?

What are the assumptions on which you perform your SoTL activities in your department/university/country?

What works, what not? And Why?
