Paderborn University is a high-performance and internationally oriented university with approximately 20,000 students. Within interdisciplinary teams, we undertake forward-looking research, design innovative teaching concepts and actively transfer knowledge into society. As an important research and cooperation partner, the university also shapes regional development strategies. We offer our more than 2,600 employees in research, teaching, technology and administration a lively, family-friendly, equal opportunity environment, a lean management structure and diverse opportunities.

Join us to invent the future!

The Department of Electrical Engineering and Information Technology within the Faculty of Computer Science, Electrical Engineering and Mathematics is seeking to fill the following position:

**W3 – University Professor (f/m/d) of “Semiconductor and optoelectronic components”**

We are looking for a candidate who is an internationally recognized expert in one or several current research areas in the domain of semiconductor and optoelectronic components, in particular

- hybrid and hetero-integration of optoelectronic components into photonic and electronic integration platforms (e.g. SiN, SOI, LNOI / TFLN, InP),
- optoelectronic devices: lasers, photodetectors, modulators, MOEMS, etc.,
- photonic quantum devices and their control.

The candidate should be able to teach the complete spectrum of semiconductor devices. Industrial and international experience as well as success with grant funding are advantageous.

We expect the candidate to be willing to collaborate with colleagues in electrical engineering, physics, and related areas. In particular, cooperation with the “Center for Optoelectronics and Photonics” (CeOPP), the “Institute for Photonic Quantum Systems” (PhoQS), the Fraunhofer ENAS and others is envisaged. Furthermore, the candidate is expected to offer courses in our English language degree programs. It is also expected that, after a reasonable transition period, the candidate will be able to offer courses in German.

**Hiring requirements:** § 36 Abs. 1 Ziff. 1-4 HG NW – University law of the State of NRW – (completed university degree, pedagogical aptitude, Ph.D. degree and additional research achievements).

The University of Paderborn is seeking to increase the percentage of women among its academic staff and therefore strongly encourages applications from qualified female scientists. In case of equal qualifications and achievements, women will be given preferential consideration according to state law (LGG). Furthermore, applications from qualified handicapped persons are also encouraged.

Further information on this position can be obtained by contacting the Chair of the Search Committee, Prof. Bernd Henning (Mail: henning@emt.uni-paderborn.de).

Applications must be received by July 22nd 2023 (Ref. No. 5810) via the application portal of the University of Paderborn:
https://bewerbung.uni-paderborn.de/stellen/5810.
